

In the name of Allah The Most Gracious The Most Merciful

**Asalaamu alaikum wa rahmahtullahi wa barakatuh**  
(Peace be unto you and the mercy of Allah and His Blessings)

**Welcome to the Annoor Cultural & Community Centre**

The Annoor Cultural & Community Centre (ACCC) Trust has been working tirelessly for a ever-growing, multi-cultural, Muslim community in Acton, West London.

Whilst maintaining a centre for communal activities, learning and worship, we are looking forward to establishing new ways to provide a safer, more secure and of course, completely halal future for our brothers and sisters in Islam. We aim to provide revolutionary ways to deal with matters such as health, finance, education and welfare by applying the teachings of our holy prophet Mohammed (peace and blessings of Allah be upon him).

This journey cannot be made by us alone. We pray for your support and encouragement, and your willing participation, insha'Allah. ACCC Trust has been established for you and your family, your neighbours, their families - everyone.

We are living in a time in history where we can see all of the world events and issues through the window of today's media, and thus have all witnessed, with our own eyes, the difficulties and challenges faced by so many groups of people. It is at times like these when we all must ask ourselves what kind of solutions can be provided to deal with these problems and who is responsible for providing them. The simple answer is that we all are.

We have established the ACCC Trust to build a platform that allows us to play an active role in building a community that responds to its people's needs and to create a central point of contact for the community. We aim to build bridges and connect minds within our multi-cultural communities so that we can all benefit from each other and create a centre with the capacity for educating young minds and hearts towards working for a stronger, more united community.

Based in West London, we are blessed to be within an area with a rich array of cultural backgrounds, each with a great deal to offer the community. It is within this context that we can harness the strengths of our individuals to power our community. Such strengths have already been seen when we purchased our current premises on Church Road in Acton.

It was by connecting the minds of the youth in our community that we were able to carry out immediate construction work to allow the centre to become suitable for operation. We were able to use the collective skills and hands on experience to increase the building's capacity and install the essentials.

Since carrying out this work, by the will and grace of Allah, the centre has been thriving and is already filled with a vibrant, young cross-section of the community. We are already at the stage where it has become necessary to carry out further work to cater for the growing numbers and to provide the facilities that will enable us to implement the solutions we have envisaged.

Alhamdulillah, we have also secured planning permission to carry out the required work, and with the launch of our unique fund raising scheme we have endeavoured to involve you all in our plans. We invite any and all of you to visit us see for yourselves what we can achieve by **connecting minds**.

Our first responsibility is to our sisters in Islam. Our aim, by the will and grace of Allah, is to provide them with the very best facilities. The space currently allocated to our sisters is neither adequate nor respectful in light of their contribution to our community or society as a whole. The first stage of the centre's development will be to build a whole new mezzanine level that will provide our sister's with a separate praying area complete with wudu (ablution), baby changing and WC facilities.

The scope of this construction work will also include the construction of a new wudu area for the brothers below, as the current ablution area is far from adequate for the brothers coming to worship. The current area will be demolished to make way for a new I.T. and information centre, and the current kitchen facilities will make way for a brand new cafeteria to provide a 100% halal menu offering a choice of cuisine as varied as the backgrounds of the brothers and sisters who attend our centre. We will also be ensuring, insha'Allah, that we have adequate disabled parking facilities couple with full disabled access to the building's main and mezzanine floors.

What we ask of you now, is your continued support. The work has begun and must be finished. The foundation and drainage work has been started outside, and we have a new wudu area almost completed. This will be followed, insha'Allah, by the piling for the mezzanine inside. The cost of this next stage has been estimated at £30,000, but once again we call upon the skills within our own community, connect minds and focus our abilities to bring this cost down further by carrying out parts of the work. If you are able to support us please fill in and cut out the attached standing form and send it to us at the address at the bottom of this page.
